

Buttonholes Embroidery Designs

Back To School Sew Along, Janome and Classic Sewing magazine

The minimum hoop size required to do your buttonholes in embroidery is 200x300mm (~8x12").

This file contains the following folders:

178x289 Buttonholes

178x332 Buttonholes

178x383 Buttonholes

The numbers correspond to the size of the embroidery design for a Size 8 dress. Sizes 4 and 6 may be slightly smaller.

Some designs have 3 color changes as outlined in the instructions and video. Others will have a 4th color change as they will need three separate placements rather than two to complete all of the buttonholes.
